

The Challenge:

The move to more flexible, decentralised workplaces presents the need for distribution, in real time, of engaging live content across a variety of platforms.

Our Solution:

Haivision's KB Mini is a compact IP encoder and transcoder allowing secure distribution of high quality FullHD video across the internet. Vaddio AV Bridge MatrixMIX offers broadcast quality camera control and switching, as well as balanced audio inputs from the Electro-Voice RE-2 wireless microphone system, to allow live production of engaging presentations in real time without geographical limitations.

Product	Function
<u>Haivision KB Mini</u>	Small form factor portable appliance capable of encoding/transcoding digital video up to 1080p30. Stream your live content and presentations securely and reliably straight to the internet!
<u>Vaddio AV Bridge MatrixMIX</u>	A single appliance which offers a multifunctional feature set to combine switching, advanced camera control, streaming and graphics mixing capabilities. Perfectly suited for live production, automated presentation and unified conferencing and collaboration.
<u>Vaddio RoboSHIOT 12 HDBT</u>	High-Performance Pan Tilt Zoom camera offering razor-sharp high-definition (1080p) video and 12x zoom with a maximum 73° horizontal field of view, recommended for conference rooms, training rooms, and classrooms that require a wide angle of view.
<u>Mersive Solstice POD</u>	Turnkey solution enabling multiple users to connect simultaneously to a shared display using a range of devices over a Wi-Fi or Ethernet network.
<u>Electro-Voice RE2-N2</u>	Wireless handheld system designed for those who are serious about their sound. Comprised of the HTU-2 Handheld Transmitter – a rugged, high-impact, ABS plastic microphone with a Cardioid Dynamic element, and RE-2 UHF wireless microphone receiver The RE-2 system provides clear sound, clean channels and easy-to-use setup and operation.
<u>LG 55SE3KD</u>	Full HD display with a sleek design, 350 cd/m2 brightness and a 3 year 18/7 commercial warranty.
<u>Chief LSM1U</u>	Installer-inspired Fusion fixed mount solves top flat panel installation problems offering flexible adjustments for large displays with a low-profile display mounting solution.
